PROFESSIONAL SUMMARY

Entry-level Software Developer with hands-on experience in building web applications using React.js, JavaScript, Python, SQL, and REST APIs. Familiar with frontend and backend development, database management, and problem-solving using data structures and algorithms. Passionate about developing scalable, maintainable, and efficient software solutions.

TECHNICAL SKILLS

Languages: JavaScript , Python, SQL

Frontend: HTML5, CSS3, React.js

Backend : Fast API, REST APIs

Database: PostGreSQL, MySQL

INTERNSHIP EXPERIENCE

Frontend Developer Intern

Resulticks Edge Solution Technologies Pvt. Ltd., Chennai . Feb 2026 – Mar 2026

Worked on a live React codebase, understanding component architecture and API data flow in a production environment. Identified and fixed UI bugs across multiple components, improving visual consistency of the application.

PROJECTS

Moviemaniac – React Web Application

- Built a responsive movie review app using React.js and TMDB API
- Implemented search, filtering, and client-side routing
- Integrated REST APIs using Axios

E-Commerce Application

- Built a responsive UI with product listing and detail pages using React and React Router
 - Implemented client-side routing and reusable components for a maintainable codebase
-
